## Resolved Customer Issues

## Resolved Customer Issues

- **LD-22169 - RPM / Physical Appliance: Proxy settings is not working**
- **LD-22216 - One touch RPM upgrade overwrites customer sampler config**
- **LD-22217 - One touch RPM upgrade overwrites customer SSL certificate**

## Known Issues

- LD-21911 - Inbound and Outbound Separated reports may not always produce identical reports to running a single direction report if the flow traffic does not contain direction
